Don't Accept Estimates

Bulletin 166

We have seen many pension valuations that were prepared based on estimates without confirming the details. It takes a careful reading of the report to recognize this.

On reviewing these estimate reports we have found errors and wrong values. Some

were out several thousands of dollars.

If you receive a report based on estimates, you owe it to your client to insist that the basic information be confirmed, in order to ensure that the values are reasonable. It doesn't cost any more to get the right values for a pension.
