Bulletin No. 151

It Could Still Be "Pro Rata"

Ever since the Court of Appeal case of Best v Best, most people are saying that pensions must be valued using the Value Added method and not the Pro Rata method. This is not always true, in my opinion.

We would be glad to explain why the Pro Rata method is more appropriate, at least in some cases. It could reduce the value of your client's pension substantially.

For further information please contact us at 1-800-891-9122 or fax us at 1-705-749-6762.
